

## Improving Lanthanide Nanocrystal Colloidal Stability in Competitive Aqueous Buffer Solutions using Multivalent PEG-Phosphonate Ligands

Pengpeng Cao, Lemuel Tong, Yi Hou, Guangyao Zhao, Gerald Guerin, Mitchell A. Winnik,\* and Mark Nitz\*

*Langmuir* **2012**; 28 (35), 12861–12870. DOI: 10.1021/la302690h

**P**age 12869: The authors regret that they inadvertently omitted the acknowledgment of funding from the Office of AIDS Research, National Institutes of Health, and helpful discussions with P. K. Chattopadhyay and M. Roederer.

The Acknowledgments should read “The authors thank the Office of AIDS Research, National Institutes of Health, NSERC Canada, and DVS Sciences for their support of this research. Helpful discussions with P. K. Chattopadhyay and M. Roederer are also kindly acknowledged.”
