2008, Volume 112B

**Kyung-Koo Lee, Eunmyung Kim, Cheonik Joo, Jaewook Song, Hogyu Han, and Minhaeng Cho\*:** Site-selective Intramolecular Hydrogen-Bonding Interactions in Phosphorylated Serine and Threonine Dipeptides

Various revisions were made in the Supporting Information of this paper, including the following: the NMR data were changed from 300–400 MHz to 500 MHz; the missing TLC and mass data were added; ref 2 was added; and the full names for abbreviations of chemicals were added. The content of the paper is not affected by such changes.

**Supporting Information Available:** Detailed synthetic procedures and characterization for compounds. This material is available free of charge via the Internet at <http://pubs.acs.org>.
