Thermoelectric Behavior of Segregated-Network Polymer Nanocomposites.

Page 4429. The sentence that starts at the bottom of the left column that reads “XD grade CNTs (Carbon Nanotechnologies, Inc.), which are a mixture of metallic and semiconducting single-, double-, and triple-walled CNTs, were incorporated in the matrix.” should be changed into the following new sentence: “Purified HIPCO single-walled carbon nanotubes (Carbon Nanotechnologies, Inc.), with 5 wt % residual Fe impurity, were incorporated into the matrix.”

Curvature-Induced Base Pair “Slipping” Effects in DNA-Nanoparticle Hybridization.

Page 319. In our article,¹ in Figure 2B, in the third box, under the heading “Structure”, the DNA sequences should read –TCGCT and TCGCT– not –TCGGT and TGGCT–, respectively, as listed.
