

## Synthesis of Platinum Cubes, Polypods, Cuboctahedrons, and Raspberries Assisted by Cobalt Nanocrystals

[*Nano Lett.* **2010**, *10*, 964]

Stephanie I. Lim, Isaac Ojea-Jiménez, Miriam Varon, Eudald Casals, Jordi Arbiol, and Victor Puntès\*

Figure S1 in the original Supporting Information has been changed. A revised file with all the Supporting Information content is available.

**Supporting Information Available.** Details on the synthesis, HRTEM and TEM images of the Pt and Co NCs, analysis of the % Co using ICP-MS, EDX spectra, and Vegard's law. This material is available free of charge via the Internet at <http://pubs.acs.org>.
