

Correction to Scattering of Disklike Particle Suspensions: Evidence for Repulsive Interactions and Large Length Scale Structure from Static Light Scattering and Ultra-Small-Angle Neutron Scattering [*Langmuir* **2003**, *19*, 532]. Surita Bhatia, John Barker, and Ahmed Mouchid*

The proper name of the product in this Langmuir article is “Laponite®”, which is a synthetic hectorite. This term was originally published without the registered trademark symbol.

Correction to Mechanism, Products, and Growth Rate of Atomic Layer Deposition of Noble Metals [*Langmuir* **2010**, *26*, 9179]. Simon D. Elliott*

The equation numbers in the supporting information of the original article (la101207y) were not reproduced, making the document very hard to read. The corrected version of the supporting information is now linked to this Addition and Correction.
