

Correction to Effects of Perfluorosulfonic Acid Adsorption on the Stability of Carbon Black Suspensions [*Langmuir* **2009**, *25*, 11984. DOI: la9025188]. Hiroki Mizukawa and Masami Kawaguchi*

Page 11987. The original publication gave incorrect x -axis labels for Figure 4 and q -values in the text and Figure 5 caption. The x -axis labels for Figure 4 have been corrected as shown below. In the text (left column), the value $q = 0.01 \text{ nm}^{-1}$ should be $q = 0.1 \text{ nm}^{-1}$. In the Figure 5 caption, the value $q = 0.01 \text{ nm}^{-1}$ should be $q = 0.1 \text{ nm}^{-1}$.
