

Self-Assembly of Brush-Like Poly[poly(ethylene glycol) methyl ether methacrylate] Synthesized via Aqueous Atom Transfer Radical Polymerization

Hazrat Hussain,* Khine Yi Mya, and Chaobin He*

2008, 24 (23), 13279–13286. doi: 10.1021/la802734e

There is an error in reporting the dn/dc value of PEGMA in THF. The correct dn/dc value was found to be ~ 0.073 mL/g in contrast to the reported ~ 0.1 mL/g in our article.¹ As a result, the values reported in columns 3 and 6 of Table 2 should be changed as well. It is worth mentioning, however, that this does not affect the conclusions in the article because these values have not been used for any deductions.
