Page 10123. A bracket was missed in eq 19. The correct one
is

$$[\text{H}^+]_{\text{G}} = \frac{[\text{H}^+]_{\text{s}}[\text{H}^+]_{\text{s}}'}{\left[[\text{H}^+]_{\text{i}}' - [\text{H}^+]_{\text{s}}' \left(1 - \frac{(1 - \nu_2)C}{C_{\text{G}}} \right) \right] \frac{C_{\text{G}}}{C}} \quad (19)$$

Equation 20 should be

$$[\text{PH}^+] = \left[[\text{H}^+]_{\text{i}}' - [\text{H}^+]_{\text{s}}' \left(1 - \frac{(1 - \nu_2)C}{C_{\text{G}}} \right) \right] \frac{C_{\text{G}}}{C} - [\text{H}^+]_{\text{G}}' \quad (20)$$
