Morphological Transitions during the Formation of Templated Mesoporous Materials: Theoretical Modeling

N. Gov, Itamar Borukhov, and D. Goldfarb *Langmuir* **2006**, 22, 605–614.

In our recent paper,¹ there is a mistake in eqs 13 and 14. Equation 13 should read

$$\frac{\bar{L}}{d} = \frac{2\phi}{\phi_e} \quad (13)$$

and eq 14 should read

$$\frac{\bar{L}}{d} = \frac{\phi}{\phi_e/2 + 3\phi_j/2} \quad (14)$$
